AUREX XXL

HIGH-PRECISION ULTRASONIC MEASURING SYSTEMS

GENERAL FEATURES

- Detailed product information (wall thickness, diameter)
- Continuous check on adherence to product specifications
- Process automation based on control of wall thickness, thin points, diameters, weight per meter and mass throughput*
- Material savings of up to 5 %
- Quality assurance and documented production process
- Smooth production process based on constant wall thickness and centering of the pipe
- Large measuring range with retrofittable extension of measuring range
- Proven measuring and control loops

MADE IN GERMANY

Type	No. of sensors	Pipe dimensions [mm/inch]
XXL 800	8	200 – 800 7.87-31.49"
XXL 1000	8	200 – 1000 7.87-39.37"
XXL 1200	8	250 – 1200 9.84-47.24"
XXL 1600	8	630 – 1600 24.80-62.99"
XXL 2000	8	1000 – 2000 39.37-78.74"
XXL 2500	8	1500 – 2500 59.05-98.42"
XXL 2700	8	1800 – 2700 70.86-106.29"

* in combination with iNOEX gravimetric systems
